

WASTEWATER PIPELINE INSTALLATION

FROM LBJ FWY & DALLAS NORTH TOLLWAY SOUTH TO NORTHAVEN RD.

MAY 2017 UPDATE

PROJECT INFORMATION

NEED AND PURPOSE:

Wastewater pipeline will be installed to meet future demands identified in City of Dallas Wastewater Master Plan to support growth and redevelopment.

PROJECT DESCRIPTION:

Installation of approximately 12,460 feet of wastewater pipeline, including 4,100 feet of 24-inch, 8,320 feet of 27-inch, and 40 feet of 30-inch wastewater mains. Paving and site restoration will follow utility work.

PROJECT BENEFITS:

- Increased wastewater capacity to support future development
- Renewed pavement along southbound lanes of Inwood Rd. affected by construction (Willow to Northaven)
- Route preserves trees and avoids impacts to property and creeks

TRAFFIC IMPACTS:

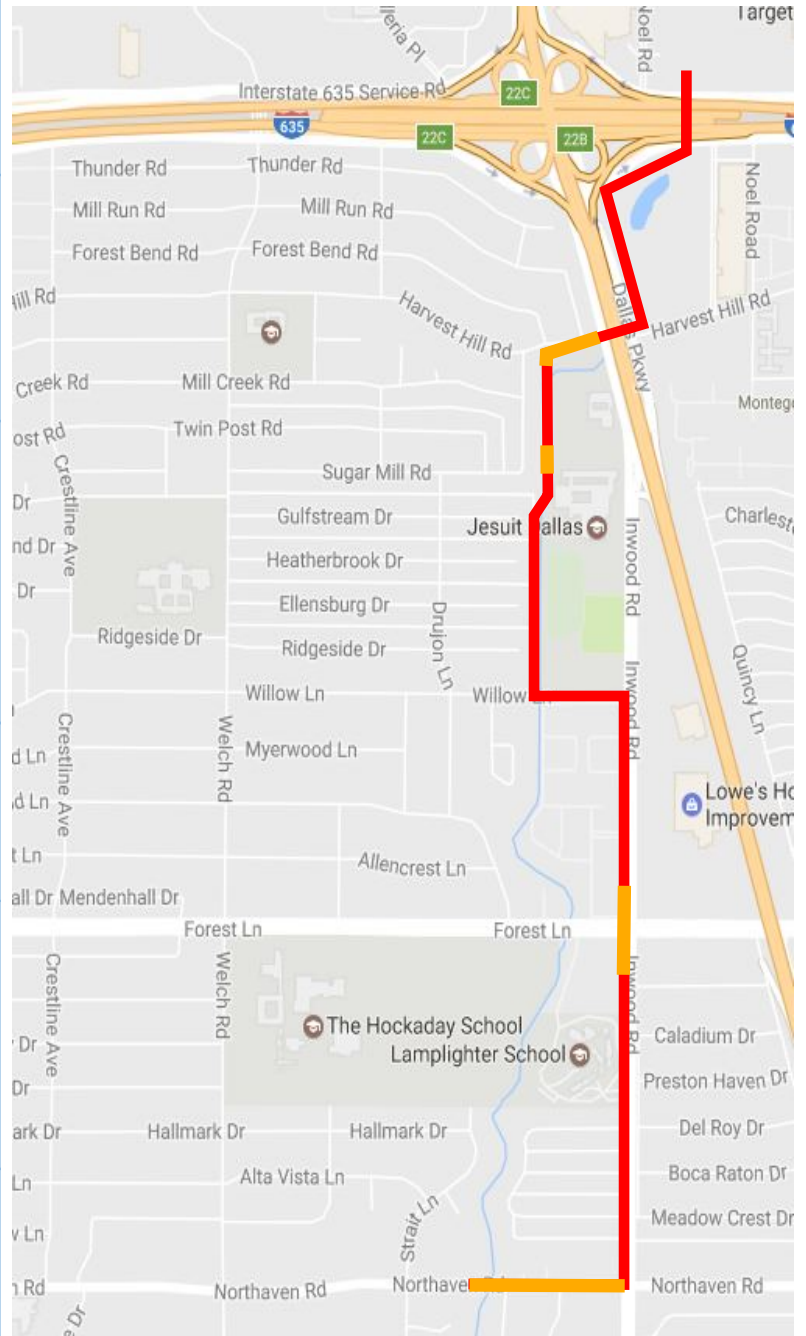

Construction on Inwood in Southbound lanes. No full closure of Inwood. Willow to be closed from creek to Inwood for 8 weeks starting in June 2017.

PROJECT DETAILS:

- **Contract #:** 16-324
- **Contractor:** S.J. Louis Construction of Texas, LTD
- **Cost:** \$10,073,842
- **Work Start:** March 2017
- **Estimated Completion:** April 2018*
*(Weather Permitting)
